Optional: Upload files pertaining to your meeting.	AAAP Small Flock Committee Report 2018.docx
Could your committee create a white paper on an issue or issues that may require Board action?	possibly

Is your committee interested in organizing a symposium and if so, when? (Committees interested in conducting a symposium must submit a symposium proposal to the board of directors no less than one year in advance. Two years is optimal. There is a symposium proposal form including a timetable available on the website.)

2020 Symposium Proposal has been submitted for consideration "Small Flock Poultry: Refining the Art of Extension"

Does your committee have a product in mind that will benefit the AAAP membership, poultry community or public at large? If so, what and what is your timetable?

Several of the current committee tasks will provide a strong online resource for AAAP members and our non-poultry veterinary colleagues. Please see attached report.

Do you have topics to suggest for the Research Priorities committee?

Defining the true disease risk between non-commercial and commercial poultry.
