

## HUGH T. CARTRITE

1918 - 1962

Dr. Hugh T. Cartrite, Associate Poultry Pathologist, Texas Agricultural Experiment Station, Substation 21, Gonzales, died of a heart attack on June 30 in his home in Gonzales.

He was born in Stratford, Texas, in 1918, and obtained a D.V.M. degree at Texas A & M in 1943. From 1943 to 1946, he was a practicing veterinarian in Dallas, Texas, and from 1946 to 1950, he practiced in Oklahoma City, Oklahoma. In 1950, he was appointed Associate Poultry Pathologist at Substation 21, in Gonzales, in charge of the Poultry Diagnostic Laboratory.

Dr. Cartrite was a member of the American Association of Avian Pathologists as well as other professional and scientific societies. He was an outstanding individual and excellent diagnostician and was highly respected by all those in avian pathology and in the poultry industry who knew him. Dr. Cartrite's untimely death is a loss to the veterinary profession, and especially to the field of avian pathology.
