

## **VIROLOGY FACULTY POSITION – UNIVERSITY OF GEORGIA**

The Departments of Population Health and Infectious Diseases in the College of Veterinary Medicine invite applications for a tenure-track assistant professor position in the biology of viral pathogens, viral pathogenesis, and/or molecular virology and the host cellular response to viral infections. The University of Georgia is undergoing an expansion in the biomedical and health sciences areas, including the opening of new BSL-2 and BSL-3 biocontainment animal and human health research facilities, construction of one of the largest veterinary teaching hospitals in the nation, and the opening of the Medical Partnership Campus. Successful candidates for this primarily teaching position will have the opportunity to participate in a rich interdisciplinary environment provided by the recently created campus-wide Faculty of Infectious Diseases (<http://id.uga.edu/>). Applicants must have a PhD, DVM, MD, or equivalent advanced degree, a minimum of two years of post-doctoral experience, and a strong record of teaching and research productivity. The successful candidate will be expected to establish a virology teaching program in the undergraduate, graduate and professional curricula. In addition, the candidate will have an opportunity to initiate and/or collaborate in virology research programs. The University of Georgia is committed to increasing the diversity of its faculty and strongly encourages applications from individuals in under-represented groups. Applicants should submit a statement of teaching plans and research opportunities, curriculum vitae, and the names and contact information for at least three references. Applications received before February 28, 2013 are assured full consideration. Questions about this position should be directed to Dr. Mark W. Jackwood, Head, Department of Population Health [mjackwoo@uga.edu](mailto:mjackwoo@uga.edu) or Dr. Fred Quinn, Head, Department of Infectious Diseases [fquinn@uga.edu](mailto:fquinn@uga.edu). Submit applications to: **Viral Diseases Search Committee, Department of Population Health, 953 College Station Road, University of Georgia, Athens, GA 30602 or by email to [dlord@uga.edu](mailto:dlord@uga.edu) with “Viral Diseases Search Committee” in the subject line.** Position start date will be on or after May 1, 2013. The University of Georgia is an Equal Opportunity/ Affirmative Action employer.
