AAAP Newsletter

THE AMERICAN ASSOCIATION OF AVIAN PATHOLOGISTS

promotes scientific knowledge to enhance the health, well-being, and productivity of poultry to provide safe and abundant food for the world.

2014 AAAP Annual Meeting in Denver

The American Association of Avian Pathologist's 57th Annual Meeting will be held in Denver, CO this year. This event will be held in conjunction with the AVMA Convention July 26-29 at the Colorado Convention Center, 700 14th Street, Denver, Colorado 80202.

The AAAP Symposium, *Impact and Control of Respiratory Diseases of Poultry*, will be held Saturday, July 26th from 7:30 am to 12:30 pm. AAAP committees will meet at the Sheraton Denver Downtown Hotel between 1:30 and 5:30 pm. Also at the hotel on Saturday will be the AAAP new member Meet and Greet from 5:30 to 6:30 pm in Plaza Ballroom A. All members are invited to stop by and welcome our new members.

Sunday, July 27th will be the first day of the Scientific Program beginning at 8:00 am and running through Tuesday, July 29th until 5:00 pm at the convention center. Randy Singer will be giving the Keynote Speaker address Sunday, July 27th from 11:30 am to 12:00 pm in rooms 102/104/106. The keynote address is titled, *Long-term perspective on the current and future state of the safety of the US food supply (particularly poultry products) and the path ahead for the use of modern technology in further improvements*. **The annual AAAP Awards luncheon will be held in Capital Ballroom 1-4 at the Hyatt Regency Denver Hotel from 12:30 to 2:30 pm on Sunday, July 27th.**

Jagdev Sharma will give the AAAP Lasher-Eckroade

History Lecture titled, *The Life and Times of Dr Benjamin (Ben) Sherwood Pomeroy (1911-2004)*, on Monday, July 28th from 10:00 to 10:30 am in room 102/104/106. From 10:30 to 11:00 am Nicolas Eterradosi will present, *Learnings on very virulent infectious bursal disease viruses (vvIBDV)*. The AAAP Business Meeting will immediately follow from 11:00 am to 12:00 pm. The Wine and Cheese Social will be from 4:30 to 5:30 pm in the Poster Room. Poster presenters will be there to explain and answer questions regarding their work. The Outstanding Field and/or Diagnostic Report Award and the A. S. "Rosy" Rosenwald Student Poster Awards will be given at this event beginning this year.

Please click on the following link to find an interactive floor plan of the convention center. [Denver Convention Center floorplan](#) The AAAP program will be in rooms on the ground level, 102 – 113. Also find a link to a downtown Denver map which includes the Sheraton Denver Downtown, the Hyatt Regency Hotel and the Colorado Convention Center. [Downtown Denver map](#) AAAP committee and affiliated group meetings will be held in the Sheraton Denver Downtown Hotel. [Take a virtual tour of the hotel](#)

Letter from the President

Mick Fulton

Greetings fellow AAAP members:

Spring finally made it to Michigan in May. You know you live in the North when you live in a subdivision, have a 100 foot driveway, are blowing 8 inches of snow that you got from the latest snow storm and putting it on top of the 5 foot snow piles you already have, and you wonder where you are going to put the snow from the next 6 inch snow fall you are predicted to get. Yes, it has been a long winter and I am sure it has been for the rest of you, no matter where you live. The good news is that the sea gulls have finally made it to the lamp posts of the Walmart parking lot, the last harbinger of spring.

In spite of the long winter, your organization has continued to work for you discussing the future of our organization and progressing toward it. Many good things are coming. We should have an excellent annual convention in Denver, Colorado because of the hard work of our program Chairs, Drs. John Smith and Danny Magee. You will have an opportunity to attend the Respiratory Symposium and hear from national as well as world recognized authorities on respiratory diseases and practical aspects about those diseases that challenge our industry. Through the remainder of the convention, you will be able to hear from researchers, graduate students, diagnosticians, and allied industry poultry veterinarians about current issues facing our industry, newly recognized diseases and conditions, and newly discovered aspects of the diseases we currently fight. This year our program agenda is available on the AVMA 2014 MapIt mobile website and mobile app for Apple & Android devices. Of course for those not technically savvy, you are always welcome to print out the program from the PDF file located on our website (www.aaap.info). To those of you whose first time it is

to attend our convention, make sure that you introduce yourself to that researcher/author you have admired. You will find out, like I did, that they are usually warm and friendly people that love their chosen field just as you do.

Since our last convention in Chicago, Bob Bevans-Kerr, at the direction of our Board, has been working with Allen Press to make Avian Diseases mobile. It is now available to be viewed on most mobile devices. If you have a smart phone or tablet you can create an icon (which works like an app) that makes the journal available to you (back to 2002). Just imagine.....being in a coffee shop after leaving a poultry farm.....you remember that you read an article in Avian Diseases about the problem you just saw.....you pull out your smart phone.....click on the icontype in your search words.....tap on Go.....and up pops the article. You refresh your memory.....call the farmer and tell him what you "remembered." You will look like a genius. I have seen the future and it looks good.

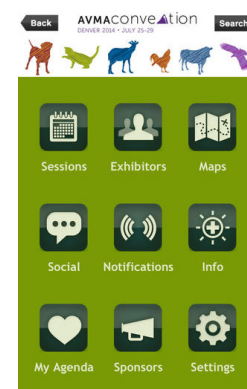

Hope to see you in Denver,

R. M. "Mick" Fulton

R. M. "Mick" Fulton
AAAP President

Thank you for completing the 2014 Salary Survey

Letter from the Executive Vice President

Chuck Hofacre

Dear AAAP Members,

I am looking forward to our annual meeting in Denver this year. John Smith and Danny Magee have worked extremely hard to organize the scientific program this year and it will be another outstanding meeting.

I am going to be a pest – anyone who has not paid their AAAP dues please be sure to do that ASAP! Your dues are our major source of income for managing the organization and publishing the journal. Also, every veterinarian needs to be sure to pay your AVMA dues. We cannot be an allied member organization of AVMA without 85% of our members being AVMA members. **This year we squeaked by at 87%.**

New Executive Vice President

Just like a person an organization grows and matures. The AAAP is now 57 years old this year. In our growth and maturity we have had only 5 members serve the role of Secretary-Treasurer. This past year the membership agreed to by-laws changes. The title of the Secretary-Treasurer is now Executive Vice President and the position now has a defined term of 5 years (still re-affirmed each year at the annual meeting). If the office holder chooses, they may

reapply for another 5 years.

I have served as your Secretary-Treasurer for 11 years. It is my belief that a change in leadership is healthy for an organization. A new leader brings new ideas, new directions and fresh enthusiasm. You will find in this issue of our newsletter a list of the job responsibilities/duties of the Executive V. P. as I have performed them.

After this annual meeting in Denver, the Board of Directors will begin actively searching for a member to become the next Executive V. P. We hope to interview candidates and then have a candidate by July, 2015. This will give the new Executive V. P. elect the opportunity to have a year of overlap with me so there is a smooth transition when I step down upon their election to the office in July, 2016.

I would ask you to assist the Board in searching for our next Executive V. P. (Secretary-Treasurer) by encouraging a member to apply or applying yourself for the position. The AAAP is a volunteer organization, for it to continue to be strong and vibrant we must have very dedicated member participation.

I look forward to seeing everyone in Denver and want to thank Janece and Bob Bevans-Kerr for all their efforts this past year.

Sincerely yours,

A handwritten signature in black ink, appearing to read "Ch. L. Hofacre".

Charles L. Hofacre, Executive Vice President
American Association of Avian Pathologists

The following reappointments and new appointments have been approved by AVMA:

AVMA Clinical Practitioners Advisory Committee
Hector M. Cervantes 2015

Avian Diseases goes Mobile

The American Association of Avian Pathologists announced a new **Mobile-friendly website** for Avian Diseases with the March 2014 issue of *Avian Diseases*.

Just enter www.aaapjournals.info on your mobile device. Articles can be easily accessed from mobile devices including phones and tablets (Android, Apple and more). Mobile access is available to AAAP Members and current subscribers to Avian Diseases.

AAAP Mobile users are able to:

- Save searches or flag articles via their mobile device. Selections are conveniently and automatically integrated and available on the full web site.
- Use the preference tab to set font size.
- Download an icon for their phone or tablet for quick and easy site access. (works much like an App)
- Set up device pairing. This is available to institutional users. Users get easy access for their mobile device directly through their institution.

For complete instructions on how to use the mobile version, please visit:

www.aaapjournals.info/page/about/mobile.

Avian Diseases is available as an eBook

You can read your issue of Avian Diseases on your favorite eReader (iPad, Kindle and more). Look online for ePub or Mobi files under "Supplemental Material" to download the entire issue onto your

device. Available for AAAP Members and Avian Diseases subscribers.

Food Animal Veterinarians and AVMA

Chuck Hofacre, AAAP Executive V. P.

There have been many concerns from not only AAAP members but also our colleagues in the AASV (swine veterinarians) and AABP (Bovine Practitioners) that AVMA has lost touch with the veterinarians responsible for the health and wellbeing of all the meat produced in the United States. I can tell you that this is **not true!**

In January Dr. Mo Saif met with his counterparts at the House of Delegates to discuss a proposal for AVMA to develop a Food Animal Division. All agreed and a proposal was sent to Dr. Ron DeHaven, Executive V. P. of AVMA. Then on April 23, 2014, Dr. Gatz Riddell, Executive V. P. of AABP, Dr. Tom Burkgren, Executive V. P. of AASV, and I met with Dr. DeHaven and his staff at

the AVMA offices in Schaumburg. We had excellent frank and pointed discussions and the result was a much clearer understanding for the need of AVMA leadership to have a person on Dr. DeHaven's staff who is, for lack of a better title, the "Advocate for Food Animal" issues. This person, as was discussed, would be liaising with all of the current committees and councils. They would help to insure all AVMA positions and publications were appropriate from a food animal perspective. There is a lot of work to better flesh out this position.

New Member Orientation

The AAAP Membership committee has created a “new member orientation” webinar to help new members learn more about AAAP and how to become involved in the organization. This webinar will outline the AAAP goals, benefits of membership, and scholarship opportunities, among other information. As one of our “new” members (those who have joined AAAP within the last 3 years) we would encourage you to attend the first annual presentation of this webinar on June 20, 2014 at 2:00 EST. Contact the AAAP Business Office for additional information- aaap@aaap.info

AVMA Future Leaders Program

The goal of the AVMA Future Leaders program is to develop leaders ready to help lead our profession into the future.

[See more about AVMA's Future Leaders Program in the this linked video.](#)

The 2014-2015 Future Leaders Program participants will be announced at the 2015 AVMA Convention in Denver, Colorado.

Applications for the 2015-2016 Future Leaders Program will be available in early 2015.

[You can find out more on the AVMA website.](#)

Kenneth Eskelund Preceptorship

2015 Preceptorship Scholarships

The Kenneth Eskelund Preceptorship Poultry Medicine Training Program was established in 1988 by Dr. Eskelund as evidence of his ardent support of the AAAP. The purpose of the preceptorships is to enable interested veterinary students to participate in poultry medicine training programs in order to expand their education, training, and veterinary skills through practical experience in their specialized field. The Foundation annually offers individual awards of up to \$1,300.00 to veterinary students to help them defray housing, living and travel expenses incurred while attending poultry medicine training programs under the auspices of their veterinary medical schools. Eligible students must be in the 3rd or 4th year of study at an AVMA accredited college of veterinary medicine located in the U.S.A., Canada, Mexico, or the Caribbean Islands. The AAAP has solicited the cooperation of its members in establishing a variety of training sites including universities, diagnostic laboratories, poultry production companies and poultry breeding companies.

www.aaap.info/aaapreceptorship

Poultry Scholarship

AAAP Foundation Poultry Scholarship Criteria and Application

The American Association of Avian Pathologists Foundation Scholarship Program accepts scholarship applications from students who are pursuing a career in poultry health and well-being and/or food safety in North America. Eligible students should attend a veterinary college accredited by the American Veterinary Medical Association, or an accredited undergraduate university or graduate school. Scholarships will not exceed \$1,000. but may be renewed by reapplying if funding is available and student demonstrates satisfactory performance. Applications are due November 1st each year.

Highlights of the AAAP Board of Director Decisions from January 2014 meeting

AAAP will consult with accountant about covering some of the operational cost of the AAAP Foundation.

The Avian Disease Manual will be available in Spanish. Design work will be starting soon. Pricing for the new book was approved at \$70 with a promotional 10% discount.

Approved the annual budget for fiscal year 2014-2015.

In the spring newsletter announce that Board is looking for candidates for the Executive Vice President position in 2016. Include Dr. Hofacre's job description and also the management company's job description. Ask interested candidates to submit a dossier.

Place in future newsletters and website: "This material is copyrighted and may not be redistributed without written permission from the AAAP Board of Directors."

Dr. Hofacre will speak to the allied food animal groups to talk about a food animal division in the AVMA.

AAAP will begin a committee review process led by a newly appointed Committee Review Committee.

The AAAP President will welcome new members at the July Meet and Greet in Denver.

The Membership Committee will create a member information poster to be included in the Poster Room. Members of the Membership Committee will stand by the poster to explain during the Wine and Cheese Reception.

A new member information webinar will be developed to be shown twice a year; first in June, and second in November.

Membership information slides will be included with the company logo slides shown at the Scientific Program breaks.

Establish a Fellow of the American Association Avian Pathologists membership category. Ask the Past Presidents group to select the inaugural class for the new award.

Scott Gustin and Eric Gingerich were approved as Development Directors beginning immediately following the 2014 annual meeting and will investigate sponsor packages.

Approved Dan Wilson as alternate representative for the AVMA Clinical Practitioners Committee.

Implement the proposal for a new selection process for young leaders with modifications to the deadlines and the addition of having an application similar to the Preceptorship application.

Minutes from previous AAAP Board Meetings

October 25, 2013

July 18, 19, and 23, 2013

New "Fellow of the American Association of Avian Pathologists" Designation

The AAAP Board of Directors has approved a new classification of membership called, Fellow of the American Association of Avian Pathologists. This "hall of fame" type of designation is meant to recognize AAAP members who have made distinguished contributions to poultry health and to the AAAP. An inaugural class will first be selected and then in subsequent years a maximum of 2 new fellows per year will be selected. The AAAP Past Presidents group has begun work on naming the inaugural class who will be awarded this honor at the Annual Meeting in 2015.

Any member of AAAP can nominate a colleague to be a Fellow. The nominee must have been a member of AAAP for 20 continuous years. Nomination materials will consist of the following:

- A cover letter
- CV/Biography of the nominee
- A nomination statement not to exceed 1,000 words, which highlights the contributions of the candidate. The statement should focus on the relevancy and impact of the candidate's contributions to the advancement of poultry health and the AAAP

How is this different than the Life Member and Special Service awards already given by the AAAP?

While this new designation is similar to those awards in recognizing contributions to poultry health and the AAAP, it is different because its "class" structure allows for the recognition of a larger number of outstanding and deserving members than the two present awards.

Committee information

(No AAAP Committee Reports or statements from this communication can be copied or published elsewhere without the written consent of AAAP.)

AAAP Committee on Diseases of Public Health Significance

The mission of the AAAP Committee on Diseases of Public Health Significance is to: a) to address current and emerging risks to public health apart from food safety that are associated with commercial poultry production, the rearing of backyard/hobby flocks, and general exposure to avian species, b) to enhance the transfer of knowledge and provide educational materials to industry personnel and the general public, c) to assist the AAAP in establishing research priorities, d) to advise the AAAP regarding relevant public opinion and pending legislation. Last year, the committee completed a list of Diseases of Public Health Significance (exposure by routes other than consumption in food products) and ranked them on perceived risk by the general public vs. actual or likely risk based on scientific data or experience. The list was sent out electronically prior to the committee meeting and rankings were discussed. The top 5 disease agents were: Avian Influenza, Salmonella spp., Campylobacter jejuni, Listeria monocytogenes (among pregnant women handling poultry), and the general category of Multi-Drug Resistant organisms (MRSA i.e., aureus, intermedius/pseudointermedius, lenti; Enterobacteriaceae CREs and other resistance patterns). A white paper addressing these 5 diseases is proposed and will focus on risks posed to individuals working with poultry (commercial, backyard, hobbyists) as well safe handling of poultry by the general public. The committee also developed a list of agents/diseases about which there are misconceptions regarding poultry. FAQ sheets are proposed for rabies virus, varicella zoster virus - VZV, and gastrointestinal parasites (nematodes, cestodes). A joint symposium in 2016 with the Epidemiology and education committees has been proposed.

This year's meeting will be held on Saturday July 26th at the Sheraton Denver Downtown in Director's Row G. The committee welcomes new members. If interested, contact the chair, Bill Pierson, at pierson@vt.edu.

Animal Welfare Committee

We welcome anyone who is interested to attend the AAAP Animal Welfare and Management Committee meeting in Denver, CO during the AAAP/AVMA conference. The meeting is scheduled on Saturday July 26th, 2014 from 2:30-4:30pm at the Sheraton Denver Downtown in the Governor's Square #9 room. If you have any questions, please feel free to contact me. Please don't hesitate to call or text if you need immediate information. Take care and look forward to seeing you at the conference!

Michael Martin
Associate Professor, NC State University College of Veterinary Medicine
Chair, AAAP Animal Welfare and Management Committee
mpmartin@ncsu.edu

Education Committee

This is to invite you to participate in the AAAP Education Committee Meeting, which will be held on Saturday 26th, 2014, at the Plaza Court Room, Sheraton Denver Downtown Hotel, from 3:30 PM to 4:30 PM. The mission of the Education Committee is to develop, evaluate and provide educational materials for people preparing for careers in poultry health, their instructors, and for the continuing education of AAAP members. In the meeting we'll review the progress made on the study slide sets in preparation and discuss the necessity of making more sets on other important topics of poultry medicine and production. Any AAAP member interested in education activities is welcome to attend.

Sincerely,
C. Gabriel Sentíes –Cué
AAAP Education Committee Chair 2013-2015

Enteric Diseases Committee

I personally would like to invite anyone who is interested in enteric health and issues to attend our meeting during the AAAP annual meeting in Denver. We will meet on Saturday July 26 at 4:30 pm. The location for the meeting will be the Sheraton Denver Downtown, Governor's Square 10. Please let me know if you have any interesting cases or issues you would like to present at the meeting. I can be reached at Daniel.karunakaran54@gmail.com
Daniel Karunakaran, Chair

Histopathology Case Report Interest Group

Histopathology and case reporting interest group will meet on Friday, July 25th between 1.00 PM and 4.00 PM in the Governor's Square 15 room at the Sheraton Denver Downtown Hotel.

Please share with the attendees any interesting, challenging and educational cases that you may have encountered. There are a few titles already lined up; storage disease in an Hawaiian goose, necrohemorrhagic hepatitis in pullets, cutaneous mucinosis in layers, focal duodenal necrosis in layers, gizzard erosions in broilers and turkey poults, AI in quail, etc.

The presentations have always been enjoyable to all because the topics are interesting and are made in an informal setting. The format is seven minutes for presentation and three minutes for questions and answers. A projector and a screen will be provided. Please send me your titles as soon as possible.

If you have any questions, comments or suggestions they are most welcome.

Thank you very much.

Sincerely,
Prasad.

History of Avian Medicine Committee

We want your ideas! Whether you are brand new to AAAP, retired, or somewhere in between, the AAAP History Committee invites you to attend our committee meeting on Saturday, July 26, 2014, 4:30pm-5:30pm in the Sheraton Denver Downtown, Governor's Square 15. You can also join us by teleconference if you aren't able to attend this year's meeting! Send me an email to make arrangements.

We want your input 1) to select topics and speakers for next year's Lasher-Eckroade History Lecture, 2) to solicit invited historical review articles to be published in Avian Diseases, and 3) to nominate important pioneers in the field of avian medicine for recognition twice a year on the cover of Avian Diseases. Please contact me if you would like more details about these or any of our other projects or if you want to submit ideas for historical topics you want to see preserved and publicized.

John Dunn, History Committee Chair

john.dunn@ars.usda.gov

Membership Committee

New Initiatives from the Membership Committee:

- Student membership for AAAP is now \$20
- AAAP members are now given the opportunity to donate to a student Awards Luncheon ticket fund when ordering their own luncheon ticket.
- A New Member Webinar will be presented on June 20, 2014 providing information on the value of membership and a guide to the website.

Please attend the New Member Meet and Greet July 26th from 5:30 to 6:30 pm in the Plaza Ballroom A at the Sheraton Denver Downtown Hotel.

Kenneth Eskelund Preceptorship Committee

The Kenneth Eskelund Preceptor Committee had the pleasure of reviewing a number of applications for the 2014-2015 fiscal year. As a committee, we recommended funding twelve applicants for the preceptor award, and all twelve were fully funded. We would like to thank the AAAP board and AAAP organization members for their continued support of this opportunity to gain experience in our chosen profession by these rising poultry stars.

Francene Van Sambeek, Preceptorship Committee Chair

Tumor Virus Committee

The Tumor Virus Committee cordially invites all AAAP members with an interest in poultry tumor diseases and Marek's disease vaccines to participate in the committee. The committee usually meets during the AAAP annual meeting and on an as needed basis. The main goal of this committee is to facilitate a discussion and exchange information on worldwide poultry tumor disease outbreaks, Marek's disease vaccination, poultry tumor disease diagnosis and research. In addition, the committee also seeks input in identifying areas of poultry tumor disease research that will be beneficial to the poultry industry. The committee informs the AAAP board and the membership about tumor disease issues relevant to the poultry industry. The committee identifies experts to author educational material and also organizes symposia aimed at disseminating practical and novel information on poultry tumor diseases to the AAAP membership.

Check out the Question/Answer document authored by the Tumor Viruses Committee on viral tumor diseases.

2014 Schwartz Travel Award

Callie Pierce – North Carolina State, College of Veterinary Medicine

Abstract focus: Assessment of Broiler Breeder Mortality Comparing Slat Height and Musculoskeletal Lesions.

2013 Schwartz Travel Award

Nichelle Peck – Atlantic Veterinary College at the University of Prince Edward Island, Canada.

WANTED IN 2016

AAAP EXECUTIVE VICE PRESIDENT

Dr. Charles Hofacre will be stepping down as AAAP's Executive Vice President July 2016 and the AAAP Board of Directors are actively pursuing applicants for this position. The new Executive Vice President will be elected at the AAAP Annual Meeting in July 2015. There will be one year of overlap with Chuck to enable a smooth transition to this important position.

The Executive Vice President position has a renewable term of 5 years. The AAAP membership must vote to reaffirm the Executive V.P. each year. This position includes an honorarium. Interested applicants can submit a letter of interest and a CV to the AAAP Board of Directors at aaap@aaap.info beginning August 1, 2014. Letters recommending the applicant are also welcome.

The AAAP Board of Directors will be looking for a candidate who;

- is a full member of the AAAP and a member of the AVMA.
- has a passion and vision for the AAAP.
- is able to work collaboratively with the AAAP Business Office on the oversight of the AAAP.
- is comfortable acting as a spokesperson for the AAAP.
- has a working knowledge of AAAP affiliated organizations including the AVMA, WVPA, CAST, USAHA, NIAA, PAACO and others.
- has leadership experience.
- has financial oversight experience.

Outline of AAAP Executive V. P. Job Responsibilities

The AAAP Executive V.P. will:

- assist the Business Office in annual development of budget.
- write 2 letters for the semi-annual newsletter.
- act as the WVPA Bureau representative at the biennial WVPA meeting.
- write the annual report for AAAP, Inc.
- write the annual report for AAAP Foundation, Inc.
- answer member's questions on phone, e-mail, snail mail.
- direct or answer questions from news media.
- assist the AAAP Business Office in determining what items require board action/votes.
- assist the AAAP Business Office in setting the agenda for Board of Directors meetings.
- attend all Board meetings.
- charge the nominating committee each year.
- assist committee chairs with any organizational needs throughout the year.
- be available for AVMA, federal government or state government needs for rapid AAAP representation or find a member volunteer.
- assume all legal fiscal responsibility for both AAAP, Inc., and AAAP Foundation, Inc.
- assist the President in conducting the annual business meeting.
- assist the *Avian Diseases* journal editor and have fiscal responsibility for the journal.
- manage the AAAP Business Office staff as they carry out the daily and long term business of AAAP, Inc., and AAAP Foundation, Inc.
- assist the AAAP Business Office with the AAAP scientific meeting as well as assist the program chairperson at the annual meeting.
- assist the President of AAAP, Inc., and AAAP Foundation, Inc., with managing the Board of Directors.
- find members willing to volunteer to represent AAAP at various outside organizations such as the AVMA, USAHA, CAST, etc.
- meet twice per year at the AVMA offices in Schaumburg with the AVMA staff and AABP and AASV executives.

The day to day management of the AAAP is the responsibility of the AAAP Business Office. The Executive V.P. is ultimately responsible for oversight of the business office, insuring that the tasks carried out meet membership satisfaction. Below is a listing of the job responsibilities of the office supporting the Executive Vice President for AAAP and AAAP Foundation.

Outline of AAAP Business Office Job Responsibilities

Financial Management

- Collect member dues.
- Collect subscription renewals.
- Responsible for payment of all bills and expense reimbursements associated with the operations
- Manage investments and association cash flow.
- Keep AAAP Financial records and book keeping
- Work with accountants for quarterly and year-end financial statements and taxes.
- Electronically file receipts, bills and other financial information.
- Conduct financial planning and management practices.
- Develop annual budgets for board approval.

Organize AAAP Annual Meeting

- Organize through the AVMA all meeting rooms and arrange and negotiate pricing for food/beverages for Scientific Program, Awards Luncheon, Board of Directors meetings, Wine and Cheese Social, New Member Meet and Greet and Past Presidents Luncheon, etc.
- Work with Development Director to procure sponsorships for the Annual Meeting.
- Work with AAAP Program Committee to assemble and produce the Scientific Program.
- Prepare and print the written materials for the Scientific Program and Awards Luncheon.
- Prepare AAAP Sponsor recognition.
- Run the AAAP information booth including selling educational materials.

Facilitate AAAP Board Meetings

- Prepare and implement agenda for board meetings.
- Prepare and distribute the minutes of all board meetings.
- Implement and help establish timetables for long range management and organizational plans under the guidelines of the Board of Directors.
- Arrange for Board of Directors meeting at the IPE.
- Collaborate with the AAAP Board on AAAP strategic planning and management directions.

Publish Quarterly Journal

- Procure advertisements for *Avian Diseases* journal and coordinate with publishing company for placement in journal.
- Oversee journal quality control.
- Negotiate contracts with publishing company and compare pricing and services.
- Work with publishing company on implementing new technologies.
- Manage the *Avian Diseases* editorial office:
 - vet manuscript submissions for quality control
 - trouble shoot for authors
 - bill for page charges and process payments
 - obtain copyrights
 - correspond with authors throughout the peer review process
 - work with the Editor on various projects
 - prepare and implement agenda for AD Advisory Board meetings
 - prepare and implement agenda for AD Editorial Board meetings
- Maintain mailing lists for journal distribution.
- Coordinate with *Avian Pathology* editor on shared content of AD and AP journals.

Publish Educational Materials

- Negotiate contracts for printing new manuals
- Facilitate the committee chair's work to produce new publications.
- Work on layout design and photo quality with publishers.
- Obtain ISBN numbers and copyright protection.

Bookstore

- Receive orders online, by phone or mail, create invoice and receipts and keep books for all orders placed.
- Print shipping labels, package books etc., and deliver to USP or other shipping company.
- Maintain shipping supplies, inventory and equipment.
- Maintain and update bookstore ordering forms and website information as necessary.
- Receive *Avian Diseases* lost claims. Correspond with customers to deliver the journal and update databases.

Communicate with Members

- Conduct Elections and other types of membership voting.
- Create and conduct surveys
- Send member wide emails.
- Create and electronically publish spring and fall newsletters.
- Send new member packages.

Support the work of committees

- Provide technical support for website and committee communications.
- Keep reports and committee rosters.
- Purchase all award plaques. Print all certificates and keep records of all awards and scholarships.
- Arrange for Membership Committee booth at IPE and supply educational materials for sale.

Operations Management

- Keep and update databases (Access, website, Quickbooks, AllenTrack)
- File taxes. Pay yearly business registrations. File 1099s and 1096 forms.
- Prepare and update all brochures, flyers and public correspondence for distribution.
- Provide telephone coverage during regular business hours five days a week.
- Maintain and improve on AAAP Office systems and equipment.

Manage AAAP Website

- Update all website content and development
- Help members navigate the website.
- Provide online access to *Avian Diseases* journal and other educational materials.
- Interface systems with other vendors, Allen Press, JSTOR, etc.
- Maintain job posting page on website.

AAAP Foundation

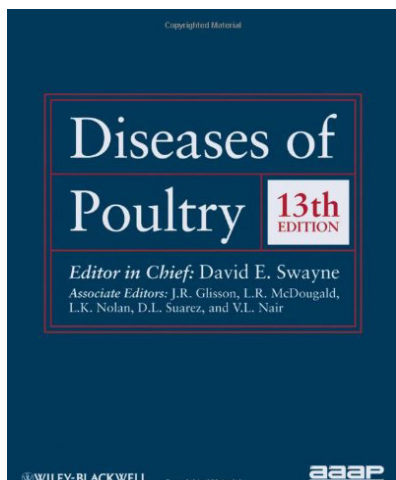

- Process all donations to the Foundation.
- Send pledge reminder letters yearly.
- Prepare Foundation meeting agendas.
- Maintain all AAAP Foundation finances.
- Package all Foundation award applications for committee review for the following:
 - Kenneth Eskelund Preceptorship Scholarship
 - AAAP Foundation Poultry Scholarship
 - Schwartz Travel Scholarship
 - Richard B. Rimler Memorial Paper Award
 - Bruce W. Calnek Applied Poultry Award
 - Bayer-Snoeyenbos New Investigator Award
 - Reed Rumsey Award
 - Rosenwald Student Poster Award
 - Lasher-Bottorff Award
 - Life Membership Award
 - Phibro Animal Health Excellence in Poultry Award
- Pay out all awards and scholarships.
- Keep all Preceptorship plan records and evaluations.

Note: In addition to supporting AAAP, the office also supports the American College of Poultry Veterinarians (ACPV) with similar management and financial responsibilities under the direction of the ACPV Secretary/Treasurer.

AAAP Publications

AAAP's most recent publications that will be of interest to poultry health professionals around the world.

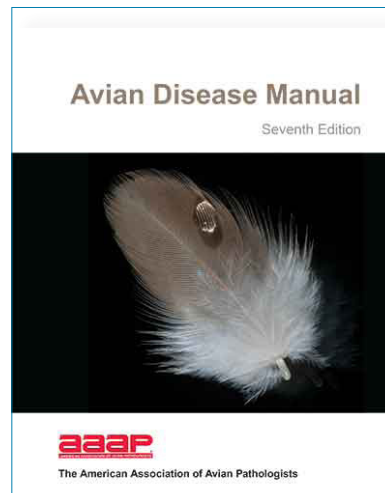

Available in print since September 2013, is the new ***Diseases of Poultry 13th Edition***-- the definitive reference book for all aspects of poultry health and diseases. It is also available as an e-book. AAAP publishes *Diseases of Poultry* in partnership with Wiley Blackwell Publications. This new edition has added newer diagnostic methods and a new chapter on the emerging importance of zoonotic infections for poultry pathogens. There are also many new high quality photographs in this 1400 page volume.

The book contains the most complete listing of common and uncommon diseases. It is organized by disease type and covers the history, etiology, pathobiology, diagnosis, intervention strategies and economic and public health significance of each. *Diseases of Poultry* is a must have for poultry veterinarians, veterinary diagnosticians, poultry scientists, students specializing in poultry health, and government officials who deal with poultry health in regulatory climate.

Available as a hard copy and eBook formats.

The new ***Avian Disease Manual 7th Edition*** was released in March 2013. It is a bestselling publication of the AAAP. Its success is likely due to its ability to deliver at a reasonable cost, concise yet complete information on commonly encountered diseases affecting poultry. It has become an educational staple to North American veterinary and poultry science students, to those interested in avian diseases, and a most useful reference in developing countries.

The manual is divided in various chapters grouping diseases by agent (viral, bacterial, fungal, etc...). Within each chapter, diseases are listed alphabetically and the addition of an index further helps the reader to quickly locate the required information. The Appendix contains tables, each of which lists the most common diseases of a single body system. Various tables lets the reader quickly compare diseases at a glance. This edition contains two new tables: diseases of the ducks and diseases of the upland game birds, to cover a wider spectrum of avian species. A poultry drug use list is also provided as a general guide. Also new to this manual is a chapter "How do we investigate a sick flock?" The necropsy chapter includes the differential diagnosis procedure which goes on when a post-mortem examination is being performed. Last, the 7th edition includes more photos than previous editions and photos are included in the text and can be found after each disease section.

Available as a hard copy and eBook formats.

Members receive a 10% discount by using the following code: aaapmember

The *Avian Disease Manual 7th Edition* is available in print and e-book. To order, visit: www.aaap.info/avian-disease-manual.

Backyard Poultry Sessions at AVMA Convention in Denver

Dr. Cheryl Greenacre of the University of Tennessee, College of Veterinary Medicine will be conducting two sessions on backyard poultry in the Companion Animal section at the AVMA convention in Denver:

Basic Care of Backyard Poultry, 15644, Sunday, July 27 from 2:00 to 2:50 PM in Mile High Ballroom 1E

Common Diseases of Backyard Poultry, 15646, Sunday, July 27 from 4:00 to 4:50 PM in Mile High Ballroom 1E

Dr. Greenacre would welcome the attendance of AAAP members with interest and expertise in backyard poultry, and for you to identify yourselves to her prior to the sessions to serve as audience reference experts on commercial birds. Questions and discussion may arise on the possible interactions between the backyard community and the commercial industry in the area, access to commercial vaccines, and so forth, and the participation of AAAP members as audience experts could be useful to both the backyard and commercial sectors. Several AAAP members attended these sessions last year, and both the AAAP members and companion animal practitioners found the interaction useful and interesting.

If you have an interest in participating in these sessions and serving as an on-site resource for commercial poultry issues and interactions with backyard poultry, please contact Dr. John A. Smith at johnsmith@fieldale.com and he will put you in touch with Dr. Greenacre.

Congratulations to AAAP Members:

Dr. Steve Roney has been accepted as the clinical poultry medicine faculty position at the Poultry Diagnostic Research Center at The University of Georgia effective July 1, 2014.

Dr. Willie Reed, Dean of the College of Veterinary Medicine at Purdue University was appointed to the Zoetis, Inc. Board of Directors, March 2014.
