1. ACPV TRAINING PROGRAM COMMITTEE ADDITIONAL COMMENTS: This ACPV Training Program has not had a student in the last 8-10 years due to funding. Currently the program still remains but is trying to get funding for its support. According to the Standards (#8) there must be evidence of adequate financial support, staff, and facilities, including equipment consistent with internship/residency post-DVM education. Therefore we are putting this program inactive until there is adequate funding.
2. ACPV BOARD OF GOVERNOR'S ADDITIONAL COMMENTS
