Address: 536 Golf Links Rd., Ancaster , ON, Canada, L9G 2N\*

Birthplace and date: The Netherlands

Citizenship and permanent residency: Canadian and Canada

USA            Canada            Mexico            Other (Please name)

Resume of your experience in avian medicine (recent positions, please give employer name, title, type of work and years spent)

From year 2000 to 2008 I was carrying out Poultry Consulting work in Canada as a self employed consultant. Besides carrying out some general poultry consulting my main focus was working with Chicken Processing Companies especially in Canada. The focus of my work was a program that we called Poultry Improvement Program. We were monitoring the bruising in the plants and identifying the bruising according to the Poultry Intellimetrics Program. Using this information on the farm, catching, hauling, unloading and in the plant we were able to reduce the damage and cost related to bruising, downgrading and loss or products, efficiencies etc.

From year 2002 to present I was involved with Mission work in Africa and other places related to poultry work and poverty alleviation. This work became fulltime in 2008. Here I worked for Christian Veterinary Missions of Canada (CVMC) as executive director and currently starting 2010 as Missions director. Address here is same as the above.

1998 to 2000 Vice-President of Quality Assurance and Production of Integrated Poultry Limited (IPL), Newfoundland, Canada - Oversight of all Quality Assurance and Broiler Production of an integrated broiler company.

1995 to 1998 Poultry Veterinarian of the Newfoundland and Labrador Government. Serviced and advised the poultry industry of Newfoundland and Labrador.

1974 to 1995 Private Poultry Veterinary Practice in Shakespeare, ON Canada. Consulted for Poultry Companies and industries in Ontario and Canada. Work included chicken layers, broilers and turkeys and other poultry species. Worked with production farms, breeder farms, hatcheries and processing plants and primary breeders and Quality Assurance. Also operated a couple of floor pen study houses for clinical studies for new drugs coming into Canada and related type studies in both broiler and layer chickens and turkeys.

What are you doing now? Missions Director of CVMC in Africa especially Sierra Leone and Central Asia and work with poultry in these areas.

How long have you been a member of ACPV? Since 1993

Other comments: Do I still indicate my ACPV status as emeritus or what?

Please send to the ACPV office or email to [support@acpv.org](mailto:support@acpv.org)
